

Build a Longhouse Game

What You Need:

- Longhouse game board per player
- Question Sheet per player
- Longhouse and Viking cut outs laid out on the desk
- Dice

The Aim of the Game:

The aim of the game is to be the first player to collect all the pieces needed to build a longhouse for your Viking.

How to Play:

Take it in turns to roll the dice and collect the longhouse or Viking cut out for the number rolled if you need it. If you already have that piece, the next player takes their turn.

Piece Numbers:

- 1 = Viking
- 2 = Side section
- 3 = Front section
- 4 = Roof
- 5 = Door
- 6 = Roll dice again

Before you can place your piece of your game board, you must answer the question that your opponent chooses to ask you from their question sheet.

If you answer correctly, keep the cut out and place it on your game board. It is then the next player's turn to roll the dice.

If you do not answer correctly, return your cut out to the desk. It is then the next player's turn to roll the dice.

Pieces can be collected in any order, but if you wish the game to last longer you can choose to collect the pieces in number order from 1-5.
